

Public Meeting NOTICE

Alley Poyner Macchietto Architecture and **Restoration Exchange Omaha**, in cooperation with the **Omaha Planning Department** and the **Nebraska State Historic Preservation Office**, will be conducting an **Intensive Level Historic Building Survey** of buildings and objects along the historic **Omaha & Council Bluffs Street Railway** routes.

There will be a **series of three meetings**, allowing the public opportunity to attend and participate in **any or all**. Background information on **the project and its progress** to-date will be presented along with time for questions. The three meeting areas have been divided along **the geographic sub-areas of the city** that are being studied. There are several formerly and currently active commercial centers in each sub-area of **west, south and north**.

Information related to the **historic buildings and their cultural heritage**, rather than the streetcars themselves is being sought. Any person or group who may have a connection to the **commercial and residential architecture** of the associated streetcar system from its era of active service is encouraged to attend and share their thoughts.
